MGV35 SERIES

OFF ROAD SEATING MANUFACTURER

Focus product range

MGV35 GREY FABRIC

Our latest range of seats meets EN13490 IT1/IT2 standards for forklift trucks and ISO 7096 EM1 to EM3 and EM5 to EM9 standards for construction equipment. Besides these two standards we focus on providing our seats with a seat belt that meets the ISO 6683 standards (seat belt strength approval).

Our UnitedSeats seats with a SIP point of 225 mm makes them ideal for forklifts & low cabin construction machinery and the 80 mm suspension stroke makes every ride comfortable. For forklift (drivers) who need an even lower suspension, the MGV35 version with extra-low SIP is now available: 210 mm.

MGV35

STANDARD FEATURES

-  **Mechanical suspension**
