MGV80 SERIES

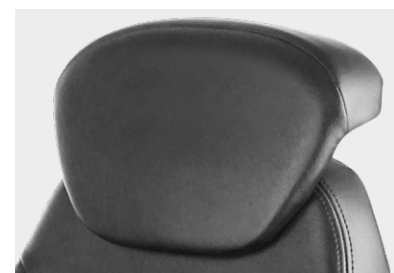

OFF ROAD SEATING MANUFACTURER

Focus product range

MGV80/C1

The MGV80 suspension is a compact, small mechanical suspension for small to medium-sized agricultural vehicles, such as tractors and telehandlers. This suspension is easy to replace for your current suspension. The MGV80 suspension is similar to the popular KAB E11 suspension. The MGV80 is a user-friendly suspension, through the convenient control buttons at the front of the suspension: the easy weight adjustment and the stepless height adjustment.

The shown UnitedSeats MGV80/C1 seat is a combination of the MGV80 suspension with the C1 upper. This is just one example of the many suspension/upper combinations that can be created with the MGV80. A variety of these combinations is shown in this brochure.
