

**UNITEDSEATS UPDATE**  
2025 number 1

# UNITEDSEATS

## Off road seating manufacturer

## UNITEDSEATS AT BAUMA SHOW

UnitedSeats will be exhibiting at the Bauma Show held in Munich, Germany from 7th to 13th April 2025. It is the worlds largest construction show with 500,000 visitors attending from all over the globe to see the latest innovations in construction and mining machinery.

UnitedSeats will be on stand A6.201 with our latest range of Construction and mining specific seating. There will various new products and seat combinations. With UnitedSeats being particularly strong in the construction sector, there will be plenty of our seats around the show fitted on OEM vehicles.

One of the newest products on the stand will the latest version of the Highlander Pro 24V, now with front

controls, 3 stage heating as standard, adjustable damper, fore/aft and seat depth and tilt adjustment. The seat meets E5 ISO 3376-2 & EU 1322/2018 standards.

For any of our UnitedSeats dealers or OEM customers planning to visit the show, please feel free to come to the stand for a drink and a catch up and we can discuss your requirements. Our UnitedSeats team is looking forward to a successful Bauma show.

## UNITESEATS WELL REPRESENTED AT LAMMA

The UnitedSeats team in the UK kicked off 2025 with the ever popular LAMMA Show, held at the NEC in Birmingham. Welcoming over 50,000 visitors from all over the UK over two days. Leading manufacturers such as JCB, Fendt, Deutz, Manitou, Kubota & Merlo displayed their latest innovations.

With five UnitedSeats dealers exhibiting at the LAMMA Show, TEK Seating, Capital Seating, Spaldings, Agriline and Vapormatic, as well as OEM's such

as Triolet, Giant Tobroco, Kubota and Merlo having our seats on the stands, it was great representation for the UnitedSeats brand.

“ Many thanks to our dealers for their efforts. ”

Royal Tunbridge Wells based TEK Seating, attended the LAMMA show and as usual they made a very nice presentation of our UnitedSeats range. These included popular models such as the Rancher Pro, Highlander, CS85/C1 AR Brown, CS85/H90 AR, MGV84/C1 SM AH, W700, US20, Mi600 and Mi800.

The stand was manned by Mark Vivian, Charles Spence, and well supported by Michael, Liam, David and Jenny from UnitedSeats and they were happy to receive their Gold dealer recognition certificate.

**Capital Seating**

Capital Seating, based in Leicester, had a very nice stand at the show where Joe, Chris and Steve were kept busy throughout the show with plenty of enquiries.

Joe, director of Capital, was happy to receive their Silver status dealer certificate following a successful 2024 with various OEM projects supplied with many UnitedSeats products.

Spaldings located in the city of Lincoln, have been working with UnitedSeats for 12 years now. They are parts, products and accessory specialists for agriculture, ground care and forestry with sales coverage across the UK and Ireland and worldwide via their website and catalogues.

On the Spaldings stand David and Mike can be seen presenting Jason with their Bronze certificate. Spaldings will be attending the Cereals show on the 11-12th June to be held in Leadenham near their HQ in Lincoln.

**Spaldings**

One of our new dealers, Vapormatic, who are one of the leading tractor parts specialists in the UK, also had a stand at the show.

Liam and Michael caught up with Dave, Nathan and Emma and presented them with their Bronze certificate for 2024. We look forward to working with them closely in 2025.

## UNITEDSEATS OFFERS XH2/U4 ALTERNATIVE

**The KAB XH2/U4 or Fieldmaster as it is sometimes known, was a very popular seat fitted by OEMs such as Massey Ferguson, Ford and Case. With its narrow suspension and low back seat upper, the KAB XH2/U4 was ideal for the small to medium size tractor range.**

It has since been discontinued and therefore no longer available in the aftermarket, now leading to owners of the classic tractors to seek alternative seats. One of the most popular models that we often receive enquiries for is the Massey Ferguson 300 series, in particular the Massey 390 which comes in various models such as the 390T & 390 HILINE.

As an aftermarket alternative, we can offer the MGV84/C6 or the MGV84/Top35 seats as direct replacements of the KAB XH2/U4 (Fieldmaster). Featuring a narrow suspension, with 120 mm mounting centres, low back

seat uppers, these two options are ideal for anyone looking to update their original seat.

The mechanical MGV84 narrow suspension offers 100 mm suspension travel, 60 mm height riser, and weight adjustment up to 120kg. The C6 is compact yet offers great comfort with its low back design, adjustable

backrest and 510 mm seat width, it is ideal for small cabins and for the drivers to see out of the rear window.

The Top35 option offers all of the specifications above with a slightly narrower 460 mm cushion and comes with the added benefit of an integrated seat belt and operator presence switch (OPS).

# AGRAR PLAZA AT THE AGROMASH EXPO

Hungarian UnitedSeats dealer, Agrar Plaza, attended the AGROMash EXPO held in the nation's capital, Budapest, over 4 days. The AGROMash EXPO is the largest agricultural show in Hungary where exhibitors from 15 different countries showcased their latest products.

Peter, Szabolcs & Peter were supported on the stand by Liam from the UnitedSeats team. They did a fantastic job at presenting the seats, with over 20 UnitedSeats seats on display. They ranged from small rear suspension seats like the W700, to the Voyager, C70 & C75 seats for truck and buses and were

fitted on all new red plinths to match the US corporate colours. Being an agricultural show, the Rancher Pro, Rancher Artisan and CS85/C1 received the most attention on the stand, where they were tried extensively by farmers enquiring about new seats for the tractors, with Belarus and IMT proving popular. The heavy duty

suspension LGV120/C1 & MGV120/C1 were also well received.

The Agrar Plaza team were also presented their UnitedSeats Dealer certificate after reaching Gold Status for their 2024 sales, a fantastic effort from them after a productive year visiting many shows in Hungary and Romania and pushing the US brand.

The show was a great success and we thank Peter, Szabolcs and Peter for their efforts.

# NEW MGV20 NARROW MECHANICAL SEAT

UnitedSeats is pleased to announce the arrival of the new MGV20 narrow mechanical seat. With its 420 mm ± 10 mm seat width is particularly designated for small cabin applications such as reach trucks, mini-excavators, side loaders and compact construction equipment.

The seat is available in two trim options: durable heavy-duty PVC and a stylish GGM fabric for a more refined look. Both options offer excellent quality and comfort, allowing you to choose the best fit for your needs.

The MGV20 mechanical suspension seat offers a weight adjustment of 45-120 kgs and comes with a sophisticated operator safety switch.

The MGV20 seat also has 150 mm of slide rail travel and back angle adjustment of 25° rearwards. It is a compact yet comfortable solution for narrow cabin environments.

The seat complies with EN13490 IT1, ensuring it meets high safety and performance standards, making it a trusted choice for demanding environments.

The MGV20 has seen much success in Asia being fitted by various OEM's including Hangcha on their A20 reach truck.

**For further information about this seat please contact your UnitedSeats representative.**
