

CONSTRUCTION SEATING

QUALITY SEATING MANUFACTURER

UnitedSeats for construction vehicles

“We unite your seat”

UnitedSeats is a worldwide manufacturer of off road seating solutions for the industrial, agricultural, construction and marine sectors. All seats are produced under contract for us in a most highly equipped 75,000 m² facility, using the latest manufacturing techniques.

We are based in Zwijndrecht, the Netherlands, from where we supply a portfolio of OEMS and a dealer network around the world. UnitedSeats remains committed to innovation, providing seating products and supported by excellent sales and service support.

Our in-house design capability allows us to tailor products for OEM and dealer specification. Our range comprises a selection of air and mechanical suspensions which are both high profile and low profile, importantly for small & compact construction machines low profile.

These suspensions can be combined with a wide selection of seat uppers and seat pans. Our skill is ‘Uniting your seat’.

Our construction seats are heavy duty and our latest models like the LGV120/C8 Pro can accommodate driver weights up to 150 kgs. Our MGV35 and MGV55 seats meet the IT1/IT2 and 13490 standards. All our suspension seats meet ISO 6683 (seat belt strength approval), ISO 7096 (construction vibration approval) and all SIP dimensions are according to ISO 5353.

UnitedSeats has a wide range of safety critical items, such as seat belts and operator presence switches.

Special armrests and pods are available to carry joystick controls for various machines. Also a wide variety of spare parts such as dampers and cushions can be supplied.

Above all, our priority is to supply seating solutions to maintain the health and safety of the operator. We also emphasize the need to maintain and repair damaged seats to prevent injuries.

At UnitedSeats we've got your back!

We have seats for the following machinery:

	Excavator
	Large wheeled loaders
	Medium wheeled loaders
	Small wheeled loaders
	Road rollers & compactor machinery
	Backhoe loaders
	Skid steer & compact track loaders
	Site dumper
	Telescopic handler
	Bulldozer

HIGHLANDER PRO

MAXIMUM COMFORT FOR DEMANDING CONSTRUCTION APPLICATIONS

The UnitedSeats Highlander Pro is a highly developed, air-suspended seat that is characterised by a wide range of individual adjustment options. It meets the e5 standardisation (ISO 3776-2 and EU 1322/2018) and is internationally recognised as a seat for construction machinery, tractors and earthmoving operations.

With its luxurious and robust upholstery, accentuated by eye-catching red stitching, the Highlander Pro offers both comfort and durability under demanding work conditions.
