UNITEDSEATS

DROVER
SERIES

CLASSIC

HILLSIDER

The **Drover Classic (MGV84/C6A)** and the **Drover Hillsider (MGV84 / Top35 AG)** from UnitedSeats are two mechanical suspension seats that are ideal alternatives to the KAB seating Fieldmaster (XH2/U4) and other KAB XH2/U series combinations.

They are compact and comfortable seats which provide ideal replacement solutions for many mid-range (70-100) Horsepower tractors built in the 1980's -2000's.

Just like the old time cattle Drover's working overland they are hardy and rugged to handle all terrains.

For farmers using tractors from the 1980's and 1990's many of the original seats will be thoroughly worn out and in need of replacement.

The 'Drover' mechanical seats will provide essential comfort and safety for operators and a new lease of life to such classic tractor models.

All 'Users' should remember that a good driver suspension seat is essential for their well being.

Select a 'Drover' from the UnitedSeats dealer network now!
