UNITEDSEATS AT ROAD TRANSPORT EXPO

The UnitedSeats team from the UK exhibited at the Road Transport Expo (RTX) held at the NAEC, Stoneleigh, which ran over 3 days with major OEM manufacturers like Volvo, Mercedes, MAN, Scania and others showing their latest innovations.

Liam, Michael, David & Jenny handled plenty of enquiries from the record crowd eager to try the Voyager truck seats. The Voyager C70 & C75, in both left and right-hand versions, were available for testing and received great feedback. Many enquiries focused on aftermarket replacement seats for MAN, Scania, DAF and Iveco trucks, with strong interest from UK-based parts specialists.

We also showcased the Mi600, with belt and slide rails, ideal for piggyback forklifts, and the popular MGV35 seat for forklifts and plant vehicles. UnitedSeats has seen success in France, Spain, Poland and South America with the Voyager range. With new RTX leads, we're confident momentum will grow in the UK.

Thanks to everyone who visited our stand at the show.

UNITEDSEATS EXPANDS PAN SERIES

With the growing success of the Mi600 pan seats, UnitedSeats have introduced the Mi150, a compact low back version designed for smaller machines. Just like the Mi600 & Mi800, the Mi150 features universal mounting holes for flexible installation options.

The seat pan is available in black, John Deere yellow and also soon to be stocked in grey.

They are all made from a single piece moulded foam for excellent weather proofing and water resistance, complete with a drain hole.

UnitedSeats and its dealers have had a lot of success supplying the Mi600 to several OEM customers and in the aftermarket as replacements for the piggy back forklifts, John Deere Gators, ride on mowers, golf carts, mobility bikes, boats and small

industrial machines.

The range is able to be specified with options such as seat belts, XB style slide rails, an operator presence switch, and in the case of the Mi800, armrests.

With the low back Mi150, mid back Mi600 & high back Mi800, we have the complete pan seat range to suit all your pan seat requirements.

SUMSERTECH INSTALLING UNITED

Our Spanish dealer, Sumsertech, have been very busy supply UnitedSeats all over Spain. Teresa, Sergi, Jordi and Sergi have great experience with seating and have been using all their knowledge when supplying their customers to achieve some great installations.

They have supplied the Rancher Pro, retrimmed in Hazel Regain fabric for a customer for his John Deere 8360R and 9620 tractor to match the brown interior. The Regain fabric is made up of recycled plastic bottles where the bottles go through a 4 stage process which eventually turns into the fabric that is used to retrim the cushions.

The hazel fabric really sets off the interior for these John Deere tractors. They have also supplied a Highlander Pro front Control with their own 360° turntable on a John Deere 1410D forestry machine, complete with the original POD control arms on left and right hand side. Their customer in northern Spain showed a lot of expertise with the installation.

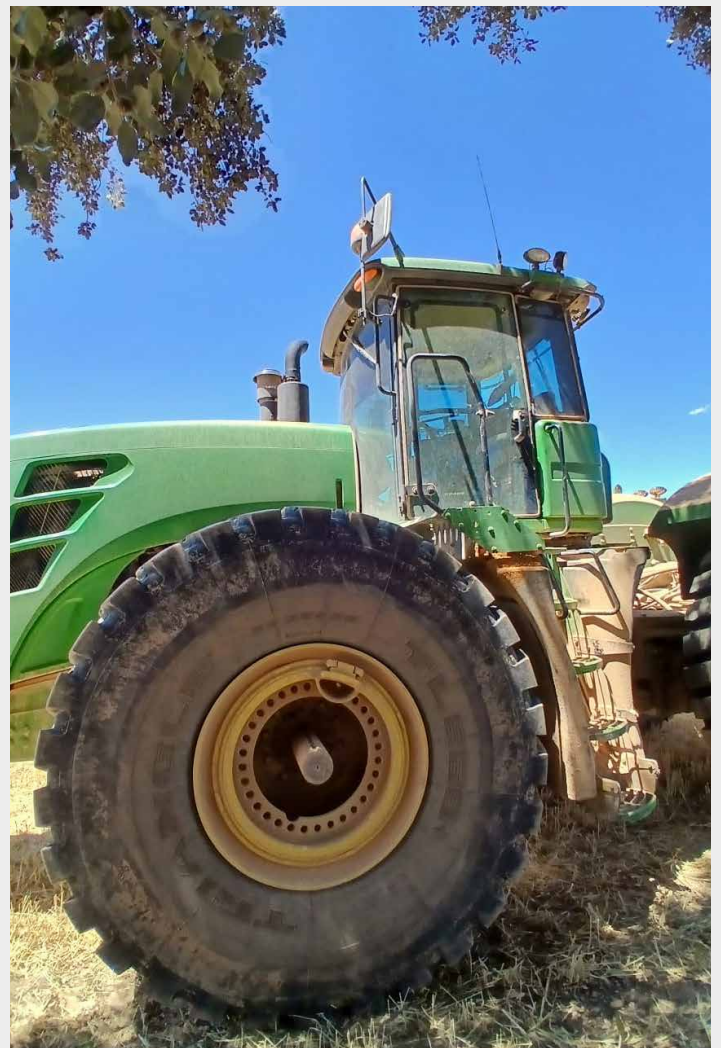

In the forklift market, the LGV64/Top35 low profile air suspension seat has been installed to a Agria 4x4 all terrain forklift. The air suspension ensures a smooth ride whilst the Top35 offers durability and comfort for the operator.

Onto the Marine sector, the team supplied the CS85/C7 Pro as a Helmsman seat and CS85/C4 as passenger seats to a harbour pilot boat, complete with the company logo on the headrests. The CS85 suspension is a great all round suspension for Marine applications, absorbing the unpredictable movements from the waves and keeping the passengers and captain stable and well protected.

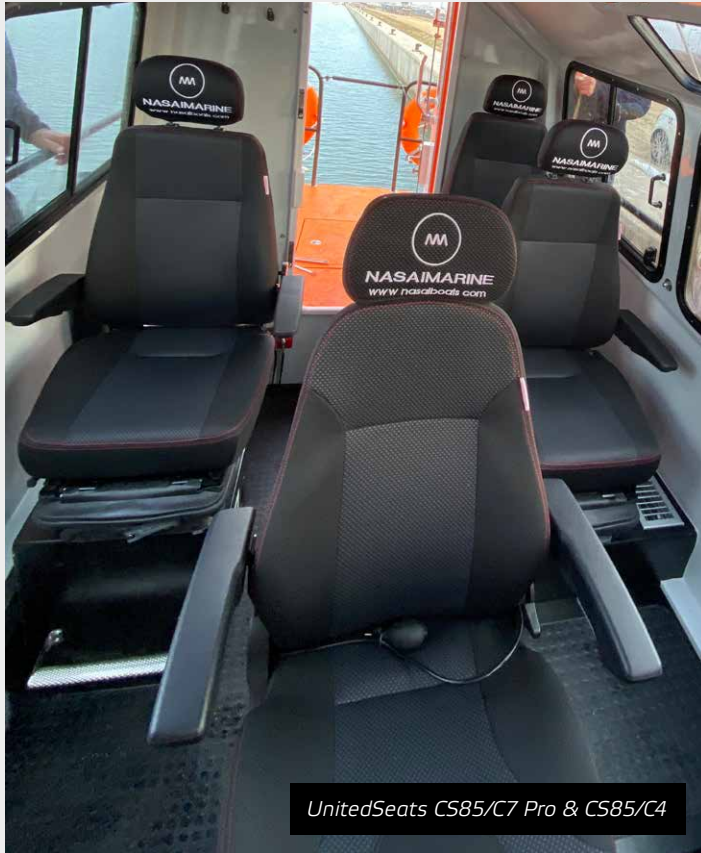

Overall fantastic work from the team, covering a variety of sectors and showing why they are up there as one of the best dealers in the UnitedSeats network.

INDEPENDENT AGRI PARTS AT TRACTORFEST

Yorkshire based UnitedSeats dealer, Independent Agri Parts, exhibited at the vintage tractor show, TractorFest at Newbury Hall. Vintage tractors are ever popular in the UK market with a lot of enthusiasts showing original and restored tractors from as far back as the 50's, with manufacturers such as Ford, Massey Ferguson, John Deere and Deutz being represented by their owners clubs.

This was their first time at the show, supported by Liam Wood from UK UnitedSeats. The event drew a record crowd, with high demand for seats like the CS85/H90, which sold out, and strong interest in the other seats on show. The MGV84/C6 was especially popular for Massey Ferguson 300 and 500 series tractors.

They displayed models including the Rancher Pro and Rancher Artisan, the LGV84/Top15, MGV35, T600,

MGV84/C1, CS85/C1, US20, W700 and Mi600. While walking around the show, we spotted several tractors fitted with our seats, including a Fordson Power Major equipped

with our popular 5010 Vario seat. Independent Agri Parts, a family run one stop shop, is quickly establishing itself as the go to destination in Yorkshire for all agricultural needs.

REKI INSTALLS VOYAGER IN VOLVO TRUCK

Our UnitedSeats dealer in the Icelandic capital of Reykavik, REKI, owned by Elfar Mar Viggosson and his family's company, Rafstilling, have been successful in fitting our Voyager C65 seat to a Volvo FL6 turbo truck.

The C65 luxury truck seat, complete with the heating and air ventilation, offers the driver an exceptional range of options and adjustability to meet their comforts. Our whole Voyager truck range complies with the essential EU on highway safety standards and meets N3/M3 for large trucks and buses.

Elfar and Palli Kristjannson have been actively pushing the UnitedSeats range in Iceland, adding a number of seats to their showroom and developing their UnitedSeats portfolio following attendance to the US mini dealer days last October at our Head Quarters in Zwijndrecht.

We thank them for their effort and promoting the US brand.

At UnitedSeats we are dedicated to providing a quality service from the initial quotation to final product delivery. Our commitment to service, knowledge and product availability has made us the preferred source for your seating needs.
