## SOLUTION FOR VOLVO WHEELED LOADERS WITH CDC CONTROLS

**Volvo is one of the leading brands in the construction machinery sector, with an extensive range of wheel loaders. These huge capacity machines are used for shovelling sand, soil, rock and gravel on very uneven terrain.**

Heavy duty seats are specified by Volvo however due to the intense nature of the work, replacement seats are required more regularly leading operators looking for durable and cost effective alternatives.

Volvo wheel loaders have been equipped with CDC controls since the early 2000's and are mounted on articulated armrests to improve hand and arm comfort for operators when using joysticks to manoeuvre and move loads. UnitedSeats have worked with a renown bracket manufacturer and devised our own CDC mounting brackets to fit the C7, C8 and C2 seat uppers allowing the CDC controls to be retrofitted using UnitedSeats options. These are available for the right-hand side of the seat (SI.800422) and Left-hand side (SI.800522).

Some of our specialist Volvo dealers, like VLV Slovakia and Mammoth Equipments Canada, have found a lot of success with the LGV120/C7 Pro complete with the CDC brackets and a 3-point belt as seen in the photo. With the heavy duty suspension, 3-point belt, durable and adjustable upper, it makes for a perfect CDC seat replacement.

# LAMMA SHOW KICKS OFF 2026

**The Lamma Show is a key event in the UK agricultural calendar, with the farming community attending the show at the NEC Birmingham in their thousands to peruse the latest innovations from market-leading manufacturers. With the endorsement of well-known farming personalities such as Adam Henson, Caleb Cooper, Harriet Cowan and Kelvin Fletcher, both the old and new generations of farmers are keen to get involved.**

Liam, Michael, David and Jenny from the UK UnitedSeats team were in attendance on the TEK Seating stand, where Mark and George had the Rancher Pro, CS85/C1, CS85/H90, MG84/C1 SM, US20, W700 and Mi600 models on display. Liam, Michael and David presented the TEK Seating team with their Platinum Status Certificate after a great 2025 with the UnitedSeats brand.

David and Michael also presented Capital Seating, who were exhibiting

at the show, with their Gold Status Certificate following a record year with the UnitedSeats brand. Joe and Chris had the Rancher, CS85/H90 and CS85/C1 on their stand, where they were supported by previous owner Stephen Swann.

David also visited the Agriline stand, where Tom Bull gladly received their Gold Status Certificate. David and Michael then presented Dan Nelstrop from Spaldings with their Bronze Status Certificate on their stand.

Among the other exhibitors were several UnitedSeats OEM customers, including Lucas G, Trioliet and Merlo. Leading the OEM presence was fellow Dutch company Giant Tobroco, who were attending the show for the first time. They have been steadily growing their brand in the market and now have eight dealers in the UK. They had the MG35 and LG90/C2 fitted in their machines on the stand, providing excellent exposure for the UnitedSeats brand.

The Lamma show was undoubtedly a success, with a record 45,000 attendees over the two days. The UnitedSeats team look forward to Lamma 2027, which will no doubt be even bigger and better than this year's edition.

# AGRAR PLAZA PRESENTS UNITEDSEATS PRODUCTS AT AGROMASHEXPO 2026

**Our Hungarian UnitedSeats dealer, Agrar Plaza, exhibited at the annual AGROMasHEXPO in Budapest, the largest agricultural event in Hungary.**

Peter, Szabolcs and Peter were joined by Liam Wood from the UK UnitedSeats team. Together they showcased a total of 25 UnitedSeats models over the four-day show. The new CS85/C1 and LGV95/C1 blue models attracted significant attention, while the Rancher Pro and CS85/C1 black proved particularly popular with visitors. They also presented the office chair range, including the C8 Pro Synergy, featuring a personalised Agrar Plaza logo on the headrest.

Peter Varga was interviewed by a local journalist, and Agrar Plaza will be featured on local news channels and social media, including a professionally produced video showcasing the full UnitedSeats product range available.

UnitedSeats was also represented by OEM partner Giant Tobroco, who exhibited at the show for the first time with UnitedSeats fitted across all of their vehicle models on display.

Following a successful 2025, Agrar Plaza has grown to become one of UnitedSeats' largest dealers and continues to be a strong ambassador for the UnitedSeats brand.

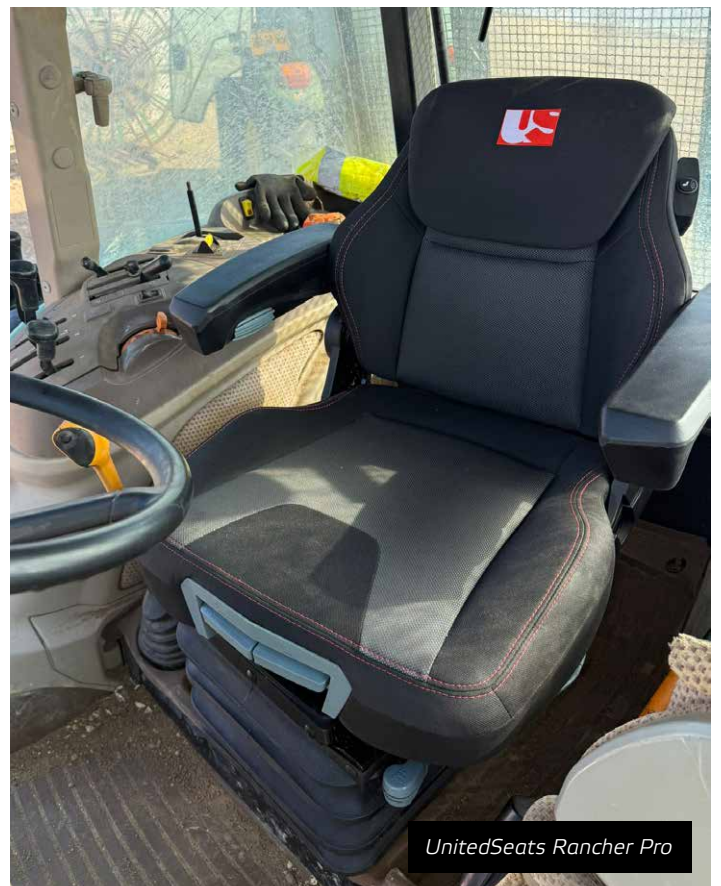

# UNITEDSEATS DEALER ASFIR ACHIEVES EXCELLENT RANCHER PRO INSTALLATION

Asfir and their mobile fitting team having successfully supplied and fitted a Rancher Pro to a John Deere 5115M tractor directly replacing the original Grammer Maximo seat. The 115 HP utility tractor can be seen here tilling, preparing the soil for planting and seeding by removing weeds and debris.

The Rancher Pro makes for an ideal installation with several deluxe features such as the 20°/20° swivel, variable damping for adjustment for working on different terrains, lockable fore/aft suspension to assist the driver with any sudden jolts from pulling the tilling attachment and seat depth and tilt adjustment on the seat cushion for better ergonomic comfort for the tractor driver.

The Rancher series is a direct replacement on older tractors with the same 260 mm mounting centres as the original seat and therefore, the fitters are able to remove the old seat, put the new seat in through the rear window and bolt in the new Rancher Pro using 4 bolts, making for a simple installation.

We thank Joey and his team of mobile fitters for another great installation.

UnitedSeats Voyager C65

# ASFIR INSTALLS THE VOYAGER C65 SEAT INTO A VOLVO FH 540 TRUCK

**After visiting us for the UnitedSeats dealer meeting in September 2025, our new partner from Israel has been doing some excellent installation work in all types of vehicles, but in particular in trucks with our Voyager truck series of seats.**

In this case they have successfully installed our C65 Premium Voyager with features such as heating and

ventilation, pneumatic lumbar support, adjustable damping and deluxe fabric into this Volvo FH 540 truck. The main difficulty in replacing the original seat with an aftermarket replacement such as the Voyager C65 is the I-shift gear lever mounted to the seat by Volvo for better ergonomics for the driver.

Asfir are renowned for their ability to find a solution that works as such,

they successfully fitted the I-shift to the Voyager C65 seat in the Volvo truck using their own bracketry created by their team to integrate them together and achieve a great installation for their customer.

A great installation from Joey and the Asfir team for their excellent craftsmanship, delivering this tailored solution.

At UnitedSeats we are dedicated to providing a quality service from the initial quotation to final product delivery. Our commitment to service, knowledge and product availability has made us the preferred source for your seating needs.
